#### **5. How much homework did you have?**

I didn't have as much homework as students do nowadays because at that time we went to school in the morning only and had the whole afternoon and evening free to do homework. I didn't go to any extra classes but did exercises in the textbooks. I normally spend about an hour or two finishing all homework a day.

**6. Did you have to wear uniform?**

No, I didn't. Luckily, when I was in school, I didn't have to wear a uniform. I hate wearing the same clothes every day. They are made for every student so they do not fit everyone.

Yes, I did. We had to wear dark trousers and white shirt every day. Girls, however, had to wear traditional 'Ao dai' on Monday. They look really pretty in that. I think wearing a uniform was great because I did not have to worry about what to wear every day. Moreover, there's no difference between poor and rich students, you know.

**7. Was the discipline very strict?**

Yes, it was. While I was at school, the discipline was very strict. We had to go to school on time and did all homework before going to class. Those who didn't follow the regulations were punished seriously (bị phạt nặng).

**8. Which subjects were you good and bad at?**

Well, I like social science subjects such as Literature (văn học) and History and rather good at them. I was very bad at Maths. It took me too much time to solve math problem (giải bài tập toán).

## TEST 1

**What are you going to do in the summer? Learning a language course; doing voluntary work or learning to play a sport. Which do you think the best choice?**

**Hints:**

**- Learning a language course: (học 1 khóa ngôn ngữ)**

+ Get B1 certificate for graduation (lấy chứng chỉ B1 để tốt nghiệp)

+ Improve English to have better job opportunities. (Cải thiện tiếng Anh để có cơ hội việc làm tốt hơn)

**- Doing voluntary work (đi tình nguyện)**

+ Help local community (giúp đỡ cộng đồng)

+ Make friends (kết bạn)

**- Learning to play a sport (Học chơi 1 môn thể thao)**

+ Get in better shape (giữ thân hình khỏe mạnh)

+ Improve your health (cải thiện sức khỏe)

The summer is coming soon and people are wondering what they should do in the upcoming time:

learning a language course, doing voluntary work or learning to play a sport. In my opinion, attending an English course is the best option because of the following reasons

**Firstly**, it is required for all students to have B1 certificate before graduation at my university. It means that in order to graduate from university, we need to have B1 level of English. Taking an English course

helps me to better prepare for the test. **Secondly**, learning English enables me to have better job opportunities. You know, English is necessary in our modern business world. Knowing English means that you can find a job more easily and especially one with higher salary.

Regarding the other two options, I know that many of my friends opt to do voluntary work because it's a great way to help community and it offers a chance to make new friends. However, as for me, learning is more important at this time. Taking up a sport isn't my choice, either because I go for a walk every day, which helps me to get in better shape and improve my health. There is no need to learn a new one. **In short**, learning a language course is my final decision.

## TEST 2

A group of students are discussing where to buy clothes: in a shop, in an open air market or in an online shop. Which do you think the best choice?

### Hints:

- **Buying clothes in an open air market** ((mua quần áo ở chợ trời)

+ A wide range of clothes (nhiều lựa chọn)

+ Cheap (rẻ)

- **Buying clothes in a shop** (mua quần áo trong cửa hàng)

+ a limited number of clothes (hạn chế số lượng)

+ only a few styles (chỉ có vài kiểu)

+ expensive (đắt)

- **Buying clothes in an online shopping** (mua quần áo trên mạng)

+ cannot try on clothes (không thử được)

+ not real pictures of clothes online (hình ảnh trên mạng không mang tính chân thực)

A group of students are discussing where to buy clothes. There are three possible options: in a shop, in an open air market or in an online shop. In my opinion, buying clothes in an open air market is the best choice for the following reasons

**Firstly**, there is a wide range of clothes in the open air market as there are many different shops selling various kinds of clothes. **Secondly**, clothes in the open air market are normally cheaper than those in a shop.

I don't opt to buy (chọn mua) clothes in a shop because, you know, each shop has a limited number of clothes. Moreover, it offers only a few styles, for example, men's, women's, kids'. Besides, clothes on

sale are rather expensive. Similarly, buying clothes in an online shop isn't my interest. I have to admit that more and more people buy clothes in an online shop nowadays because of the low cost and a wide selection of clothes. However, I don't like online shopping especially for clothes because I cannot try on them so it's difficult to know whether they fit me or not. Besides, all clothes online look really nice thanks possibly to photoshop. As a result, they might look really ugly when I bring them home. **In short**, I would prefer to buy clothes in an open air market.

### TEST 3

A first year student is going to choose where to live: living in the university hostel (ký túc xá), renting a flat or staying with the relatives. Which do you think is the best choice?

#### Hints:

- **Living in the university hostel** (sống trong ký túc xá sinh viên)

+ Cheap

+ Convenient: close to university, easy to share learning materials or discuss with roommates (tiện lợi: gần trường, dễ dàng chia sẻ tài liệu học tập hoặc thảo luận với bạn cùng phòng)

- **Renting a flat** (thuê 1 căn hộ)

+ Costly (tốn kém)

- **Staying with a relatives** (ở cùng họ hàng)

+ not comfortable (không thoải mái)

+ do housework (làm việc nhà)

A first year student is going to choose where to live: living in the university hostel (ký túc xá), renting a flat or staying with the relatives. In my opinion, if I were in the situation, I would opt to live in a university hostel for the following reasons.

**Firstly**, it is very cheap to stay there. A freshman would have to pay tuition fee (học phí) and a lot of other cost such as food, books, etc. Living in a university hostel would save him or her a lot of money.

**Secondly**, I find it very convenient to stay in a hostel because it is often close to university so he or she can walk to school. Then it does not cost any to buy bus ticket or gas. Moreover, it is easy to share learning materials or discuss with roommates. Living in a university hostel, you normally share a room with about a few people from the same university. Therefore, whenever, there is a question you can easily ask them for advice or discuss to solve the problem.

I don't choose to rent a flat because it is costly to do so. Regarding staying with the relatives, I think it is not so comfortable. Moreover, they might live far away from university or we have to do housework.

**In short**, living in a university hostel is the best option for a first year student.

#### TEST 4

If you won a lottery of 1 billion VND, what would you do: buying a house, buying gold or saving in the bank? Which do you think is the best choice?

- **Buying a house** (mua nhà)

+ Need a house to live in (cần có 1 ngôi nhà để ở)

- **Buying gold** (mua vàng)

+ price goes up and down (giá biến động)

+ not safe to keep (cất giữ không an toàn)

- **Saving in the bank** (gửi tiết kiệm)

+ low interest rate (tỷ giá thấp)

+ money loses its value (đồng tiền mất giá)

If I won a lottery of 1 billion VND, I would definitely buy a flat because at the moment I have to pay rent.

Well, there is a saying that a rolling stone gather no moss (không an cư thì không lạc nghiệp). I think it's true that a stable accommodation would lead to a stable job. I know that with 1 billion VND, I can only afford a flat far from a city centre so I would obtain a loan from the bank or borrow some money from family and friends.

I don't choose to buy gold because you know, the price goes up and down and with 1 billion VND, I will be able to buy a lot of gold. **Then**, I would be worried about where to keep it. Regarding saving in the bank, I think it isn't a good idea for me to do so because right now the interest rate is very low – just about 6% a year. Moreover, money will lose its value when we keep it in the bank because of inflation.

**In short**, I would opt to buy a house if I were in the situation.

#### TEST 5

You have a young brother who is a talented student. Which high school would you choose for him: a school abroad in Australia, a public school near your home; or a gifted school far from home.

**Hints:**

- **A public school near your home** (1 trường công gần nhà)

+ Live with family and be taken care of (sống cùng gia đình và được chăm sóc)

- + low cost (chi phí thấp)
- **A gifted school far from home** (trường chuyên xa nhà)
- + Offer better education (có điều kiện học tập tốt)
- + Too far (quá xa)
- **A school abroad in Australia** (du học nước ngoài ở Úc)
- + Too far away from home, homesick (xa nhà, nhớ nhà)
- + Face culture shock (đôi mặt với cú sốc văn hóa)

My younger brother who is a young talented student is deciding on which high school to go to: a school abroad in Australia, a public school near your home; or a gifted school far from home. In my opinion, a state school near my home is the best option because of the following reasons.

**Firstly**, he can still live with my family. Therefore, he can be well taken care of. On the contrary, attending a school abroad or a gifted school far away from home in Vietnam, he has to live on his own and can't see his family often, so he might feel homesick. Besides, living in another country is often quite challenging for a young person like him. For example, he has to learn a new language which is rather difficult or encountering culture shock. **Secondly**, as he lives at home, my family does not have to pay for his rent or other living cost. I have to admit that a school overseas or a gifted school will offer better courses. As a result, he will have more job opportunities with higher salary. However, the ultimate goal of studying is to be able to get a good job. This can still be achieved by going to a public school near my home because it can still provide good knowledge and skills to prepare him for university entrance exam.

**In my view**, wherever he studies, it is himself who decides what he can learn, so I think, the public school close to my house is best choice for him.

## TEST 6

**You want to improve your English speaking skills. There are three options for you: joining an English club, joining a class at an English center, or talking to foreigners in public places.**

**Hints:**

- **Joining an English class at center.**

- + A structure course with real life situations (một khóa học được thiết kế với tình huống thực tế khác nhau)
- + Instructed by experienced teachers (được giáo viên có nhiều kinh nghiệm hướng dẫn)

+ great fun (vui vẻ)

**- Joining an English club**

+ Noisy (ồn ào)

+ no one checks your speaking (không ai kiểm tra kỹ năng nói)

**- Talking to foreigners in public places**

+ Limited time and speaking topics (hạn chế thời gian và đề tài nói)

I want to improve my English speaking skills. As for us, we can choose among three options: joining an English at an English center, or talking to foreigners in public places. In my opinion, taking an English course is the best choice because of the following reasons.

**Firstly**, a course in an English center is often well structured with different real life situations.

Therefore, I can take part in many speaking activities and more importantly, these situations are common in our lives. Moreover, a course is always instructed by an experience teacher who knows which materials are the best for his/her students. **Besides**, he or she can correct student's mistakes if there are any. On the other hand, nobody checks your work while you participate in a club and it is often so noisy that you hardly hear what other people are saying. I do not opt to talk to foreigners in public places because you know, they are normally busy sightseeing and some of them are not willing to speak to us. Even when they are, you can only spend a few minutes chatting on very limited topics like the weather, job and so on.

**In short**, taking an English course is the best option for me.

## TEST 7

**Your school asks for your opinion about wearing uniform. Which would you choose: wearing uniforms all week, wearing uniforms 2 days a week, or no uniform at all?**

### Hints

**- Advantages of wearing uniforms** (lợi ích của việc mặc đồng phục)

+ Benefits students who cannot afford to buy expensive or fashionable clothes (có lợi cho sinh viên không đủ tiền mua áo quần hoặc thời trang đắt tiền)

+ No gap between the rich and the poor (không có khoảng cách giữa người giàu và nghèo)

+ Not think of what to wear or how to combine clothes (không phải nghĩ mặc gì hay kết hợp quần áo ra sao)

**- Advantages of not wearing uniforms** (lợi ích của việc không mặc đồng phục)

- + Have own choice of clothes to wear (được quyền lựa chọn quần áo riêng)
- + Show your personality, demonstrate your sense of style of fashion (thể hiện cá tính, và gu thời trang)

My school asks us for our opinion about wearing uniform. There are three possible options wearing uniforms all week, wearing uniform 2 days a week, or no uniform at all. In my opinion, I would opt to wear uniforms two days a week so that I can take advantages of both wearing uniforms and no uniform at all.

**Firstly**, wearing uniforms benefits students who cannot afford to buy expensive and fashionable clothes. As all people dress the same way, there will be no gap between the the poor and the rich so that poor students will feel more confident. Moreover, when we wear uniform we do not have to think of what to wear or how to combine different clothes before getting to school. **Lastly**, uniforms are a form of school unity. They tell other people what school you belong to. Regarding the advantages of not wearing uniform, well, you still have your own choice of clothes which reflect your own taste as people often say the way we dress often reveal who we are.

**In conclusion**, it's great for students to have a balance between wearing uniforms and having their own style of clothes.
